

Leyburn Primary School Sports Premium

Our school has a well-established positive attitude towards physical education and sport. Our pupils are given many opportunities to participate and try new activities, including extra-curricular clubs and competitions. Our main emphasis is on pupil enjoyment, participation and attainment.

We aim to ensure that activities provided by the Sports Premium funding will have a positive impact on the children in our school through supporting the following key areas:

- Achievement in weekly PE lessons for all children
- Increased participation and success in competitive school sport (both inside and outside our cluster)
- Improved personal health and wellbeing
- Improved attitudes and behaviour towards learning
- Improved links with the School Sports Partnership as well as the schools in our Cluster

We intend to spend the Sports Premium money to widen the participation of our children in physical activity, develop teacher confidence and competence, and work in partnership with other agencies and trained coaches to improve our provision of sport and PE.

Whilst continuing the excellent provision in sport that we already provide, we want to build on this and in particular increase our participation in higher levels of sporting competitions and tournaments. Competition is a key part of our Sports Premium allocation and we intend to provide a range of both intra and inter school competitions. Through these initiatives, in the academic year of 2015-2016, we achieved the Silver Award from the Sainsbury's School Games. We want to continue our success and to maintain this high standard by attending more Level 2 and Level 3 events. We also want to ensure that all children are able to access sporting competitions with the correct equipment and attire. We aim to organise more OAA activities outside of school such as a canoeing trip for the Year 5 children. Another key area that we will be focusing on is the development of the Playground Leaders programme. The current programme that was rolled out in 2014-2015 has supported team-work and harmonious play during break-times for KS1. It also provided a wide range of children with the opportunity to lead and support other children in school. Now we will monitor the success of this programme with the aim of rolling it out further across the school and involving more children in upper KS2. We will also use some of the Sports Premium allocation to strengthen our provision of after-school clubs, particularly for KS1.

Our focus for 2017-2018 is the development of our outdoor area so that we can provide a higher quality of Outdoor and Adventurous Activities (OAA) for our children during curriculum time. This will be delivered through a new '20 things to do in Year...' initiative which will be introduced and monitored closely by the PE Co-ordinator to assess its impact on the breadth and quality of OAA.

The Governors will be kept up to date with how the Sport Premium has been used in school and its impact.

The impact of the Sport Premium will be evaluated through staff and pupil conferencing as well as an analysis of the uptake of activities and interest in sporting activities. A log of events and activities will be kept on a PE board in school as well as updates to the school website - showing photographs, certificates, letters, newspaper clippings and pupils' thoughts. The children will also be involved in decisions regarding the use of Sports Premium (such as for playground equipment or clubs) through meetings with the Family Forum.

The impact of the School Sports Premium on Pupils' PE and sport participation and attainment

The School Sports Premium 2016-2017 enabled us to:

- Take part in a wide range of competitions, including Level 3 events (against schools from across the county) such as Cross Country
- Widen our provision of inspirational days and events including dance days and a very successful canoeing trip to Whitby for children in Year 5
- Provide a greater range and quality of sports clubs for both KS1 and KS2 children (multi-skills, games and rugby)
- Cater to the emotional needs of our children in Year 2 and Year 3 by employing a specialist Yoga teacher to deliver weekly lessons during curriculum time; developing mindfulness and wellbeing (as noted by a parent during a parent forum meeting)
- Start planning for the provision of higher quality OAA sessions by developing our outdoor area (this is a big push for us next year with the rolling out of the '20 things to do' initiative).
