

Newsletter Friday 14th May 2021

Dear Parents & Carers,

I'm not sure the weather knows what it is doing; we seem to be having weather from every season in a day at the moment! Please can you make sure that your child comes to school with a coat as we do try to get out in all weathers! Names in uniform would also be very helpful because if and when the weather does get a bit better we need to be able to return discarded clothing to its rightful owner.

Safeguarding

If children have appointments during the school day or need to be collected early, please can parents inform the school office, and we will let the class teacher know. Messages can be left on the school answer machine or an email can be sent. If messages are sent through class dojo it does not always get passed to the office and we need to ensure our registers are up to date at all times as part of our safeguarding procedures. Thank you for your co-operation with this.

Pedestrian Entrance

Please can all parents ensure that they use the pedestrian entrances to walk on to the school site. Please **DO NOT** walk through the main car park gates as there are lot of cars, buses and taxis at the beginning and end of the school day. Thank you for you support to ensure that ALL children are safe on our school site.

Nursery

The Nursery children have been planting potatoes, carrots, lettuce, beans and peas. They are watering them every day and were very excited to see that the potatoes have begun to grow this week!

Reception

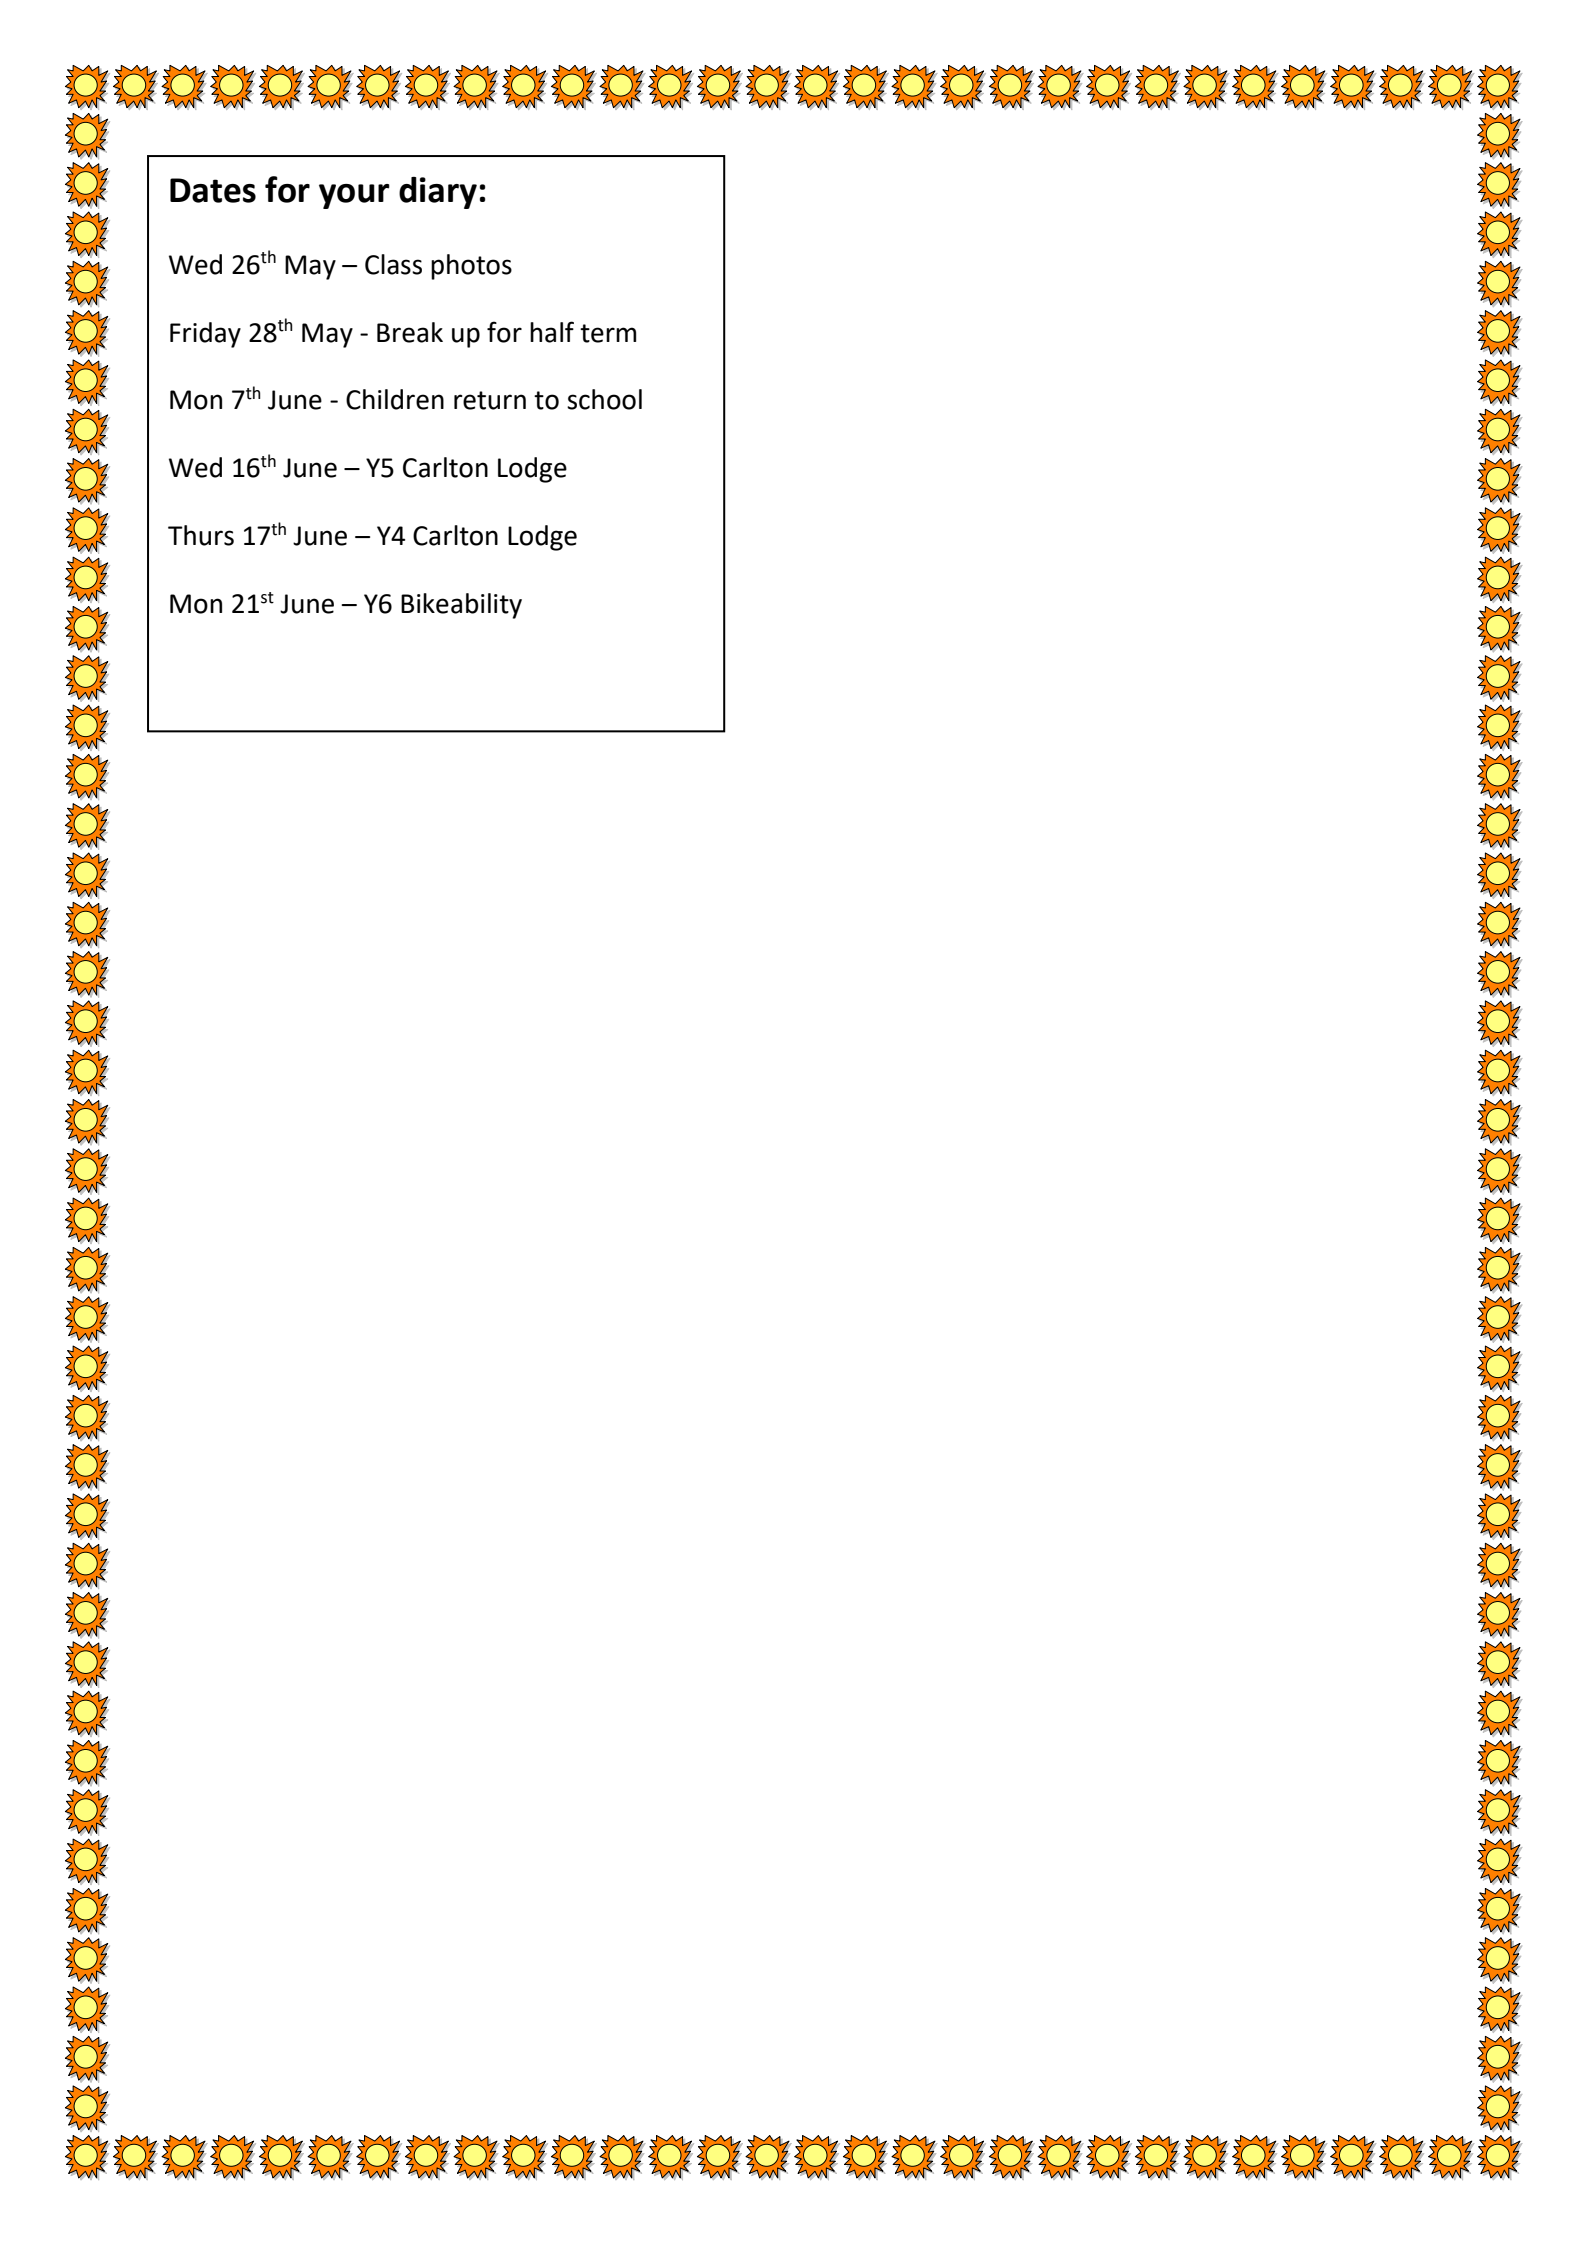

As part of their learning about people who help us, the children in reception had a visit from PCSO Zoe Armstrong on Tuesday. They found out about stranger danger and the importance of never going with someone we don't know. The children had thought of some excellent questions to ask and found out about how fast the cars go, how the police catch bad people and what Zoe's favourite food is! Last week the children were visited by Mrs Fort from the school office and found out what her favourite colour pen is and what her computer is like. The children have a visit from the fire brigade and the dentist coming very soon.

Year 6

As part of their DT unit, Year 6 have been learning about how to make programmable alarm systems for vehicles. We have had great fun learning about how different switches work and how to use light sensors with the microcomputer Crumble to turn our headlights on when it gets dark.

Dates for your diary:

Wed 26th May – Class photos

Friday 28th May - Break up for half term

Mon 7th June - Children return to school

Wed 16th June – Y5 Carlton Lodge

Thurs 17th June – Y4 Carlton Lodge

Mon 21st June – Y6 Bikeability
