

Newsletter Friday 30th April 2021

Dear Parents & Carers,

The sun is shining today which is a welcome change after the cold weather and hailstones over the past few days, although our children in nursery found them very unexpected and interesting. We all really hope that this longer weekend brings some warmer weather and that you all have a lovely day on Monday.

Online safety

We now have a link on our website to parentinfo which is resource for parents, recommended by the NSPCC. It provides information, guidance and support for parents, carers and families in this digital world.

Nursery

Our new children in nursery have settled in well and are enjoying making friends and trying out different experiences.

They have been making beautiful flowers from jewels and then even fishing for bouncy jewels in the water tray!

Design Technology

As part of our curriculum development, we are now members of the DT Association and are using their resources across the school. Year 2 have just

completed a unit on fixed and free axles – we certainly have some budding engineers in that class!

Musician in school!

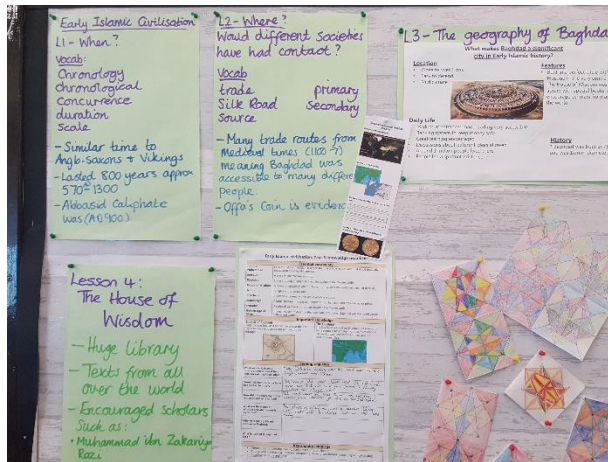

Anya, in year 5, has just taken her first guitar exam and passed with flying colours. We are very proud of her achievement and look forward to seeing how she progresses with Grade 1.

Anya receives lessons in school with JC Guitar Tuition. If any of you would like further information, then please contact the school office.

History in Year 5

Year 5 are learning about early Islamic civilisation and the impact that this has had on the development of astronomy, mathematics and medicine, to name but a few.

And finally (again)

The day has come, as such days do. Mrs T is finally leaving Leyburn Primary School after many happy years. Thank you for your kind messages – they mean a lot to her and will be something to treasure as she looks back on her time here.

They have found out that:

- An Islamic scholar developed the numbers we use today;
- Baghdad was perfectly circular and built 'by hand';
- Cat guts were used to stitch wounds (they all love that fact!)

We hope that you all have a lovely bank holiday Monday – see you all on Tuesday.
